Date : 03/05/2025

To,

The Principal
All Affiliated (Commerce & Management) Colleges/ Institutions,
Shivaji University, Kolhapur

**Subject :Regarding syllabi of B.Com. (Computer Application) Part-II (Sem. III & IV)
degree programme under the Faculty of Commerce & Management as per
National Education Policy, 2020 (NEP 2.0)**

Reference : शिवाजी वि.जा.क. संलग्नता/टी-2/1567 दिनांक 31 मे, 2024

Sir/Madam,

With reference to the subject mentioned above, I am directed to inform you that the University authorities have accepted and granted approval to the syllabi of **B.Com. (Computer Application) Part-II (Sem. III & IV)** under the Faculty of Commerce & Management as per National Education Policy, 2020 (NEP 2.0)

This syllabi shall be implemented from the academic year **2025-2026** onwards subject to the approval from the government. A soft copy containing the syllabus is attached herewith and it is also available on university website www.unishivaji.ac.in (Online Syllabus).

The question paper on the pre-revised syllabi of above mentioned course will be set for the examinations to be held in October/November 2025 & March/ April, 2026. These chances are available for repeater students, if any.

You are therefore, requested to bring this to the notice of all Students and Teachers concerned.

Thanking you,

Yours faithfully,

(Dr. S. M. Kubal)
Dy.Registrar

Encl: As above

for Information and necessary action

Syllabus as per National Education Policy(NEP) 2020
B. Com. Computer Application SEMESTER – III

DSC7	Programming with C++	Credit: 02
Marks: Semester End: 40 Internal Assessment: 10 Total Marks: 50		
Course Outcome	After completion of this course students will able to - 1) Understand basics of object-oriented programming using C++ 2) Apply the concepts of inheritance and polymorphism through C++	
Unit I	Introduction to C++ Basic Concepts of OOP, Benefits & Features of OOP, Structure of C++ Program, Data types, Keywords and Operators, this pointer, Control Structure – Conditional and Looping statement. Class Declaration, Declaration and Definition of a Constructor & Destructor, Function Declaration and Definition (Inside class and outside the class using scope Resolution Operator), Calling Functions, Inline Functions, Friend Function.	15
Unit II	Inheritance and Polymorphism Concept of Inheritance: Base Class & Derived Class, Types of Inheritance (Single, Multiple, Hierarchical, Multilevel, Hybrid Inheritance) Concept of Polymorphism: Static Polymorphism and Dynamic Polymorphism, Function overloading and overriding, Virtual Functions and Pure Virtual Function	15
Books Recommended: 1) The C++ Programming Language, 4th Edition by Bjarne Stroustrup 2) Object Oriented Programming with C++ by E. Balagurusamy 3) Let Us C++ by Yashavant P. Kanetkar 4) C++: The Complete Reference by Herbert Schildt

Syllabus as per National Education Policy(NEP) 2020
B. Com. Computer Application SEMESTER – III

DSC8	Computer Networking	Credit: 04
Marks: Semester End: 80 Internal Assessment: 20 Total Marks: 100		
Course Outcome	After completion of this course student should be able to- 1. Understand the concept of computer network. 2. Understand the process of Data communication over computer network. 3. Recognize the different functionalities of network. 4. Identify different models required to build layered network.	
Unit I	Introduction to Computer Network: Definition of a Computer Network, Concept of Network, Need of a computer network, Components of computer networks- Client, Server and Workstation. Network architecture: Client-Server and Peer to Peer, Network devices-hub, repeater, bridge, router, gateway. Classification of computer network-geographical spread (LAN, WAN, MAN). Network topologies-Bus, Ring, Star, Mesh and Tree	15
Unit II	Data Transmission: Data transmission methods-serial and parallel transmission. Data communication types- analog and digital transmission. Transmission Modes: Simplex, Half duplex & Full duplex, Transmission Medias- Guided media - twisted pair, coaxial cable, optical fibers. Unguided media-radio waves, microwaves, infrared.	15
Unit III	Functionalities of Network Concept of Error detection & control code. Flow control- Stop and Wait protocol, sliding window protocol. Routing and Switching techniques - Circuit, Packet & Message switching, Multiplexing techniques, Connection oriented and connectionless services.	15
Unit IV	Network Model OSI Model -Introduction, Working and Functions of – Physical layer, Data Link Layer, Network Layer, Transport Layer, Session Layer, Presentation Layer, Application Layer. TCP/IP Model - Introduction, Working and Functions of Process/Application layer, Host to Host/Transport layer, Internet layer, Network access/Link layer.	15
Books Recommended: 1. Computer Networks Andrew Tanenbaum, Pearson Education 2. Data Communication and Networks, James Irvin, David Harle, Wiley 3. Computer Networks protocols, Standards and Interface Black C. Prentice Hall of India 4. Computer Communication Networks William Stalling Prentice Hall of India 5. Computer Networks Edition-01by Dave, Cengage Publication		

Faculty of Commerce and Management
Syllabus as per National Education Policy(NEP) 2020
B. Com. Computer Application SEMESTER – III

DSC9	Lab on DSC7	Credit: 02
Marks: Semester End: 50 Total Marks: 50		
Course Outcome	After completion of this course students will be able to - 1) Apply the concepts of object-oriented programming using C++ 2) Implement the concept of inheritance and polymorphism using C++	
List of Practical's:		
1. Use of operators in C++. 2. Illustrate Control Structures. 3. Create a class and creating an object. 4. Create constructors – default, parameterized, copy. 5. Demonstrate declaration and definition of function. 6. Illustrate different Access Specifiers. 7. Illustrate inline function. 8. Define Member function-outside the class using Scope Resolution Operator. 9. Illustrate friend function. 10. Illustrate Inheritance – single, multiple and multilevel. 11. Perform static and dynamic polymorphism. 12. Demonstrate virtual & pure virtual function.

Syllabus as per National Education Policy(NEP) 2020
B. Com. Computer Application SEMESTER – III

DSM2	Accounting with Tally	Credit: 04
Marks: Semester End: 80 Internal Assessment: 20 Total Marks: 100		
Course Outcome	After completion of this course students will able to – 1. Use basic accounting procedures for maintaining financial records. 2. Understand the significance of financial statements 3. Learn to create company and enter accounting voucher entries in Tally 4. Demonstrate reports for different financial statements in Tally.	
Unit I	Introduction to Financial Accounting Meaning and Definition of Financial Accounting, Objectives of Accounting, Various users of Accounting Information, Accounting Terminologies, Accounting Concepts and Conventions, Double entry system, Types of Accounts and Golden rules of accounting. Books of Prime Entry, Subsidiary Books and Ledger Creation.	15
Unit II	Preparation of Financial Statements Trial Balance – Meaning, Definition, purpose and features, preparation of Trial Balance. Final Accounts – Introduction, Objectives of Final Accounts, Preparation of Trading Account, Profit and Loss Account, Balance Sheet.	15
Unit III	Introduction to Tally Tally History and Journey, Difference between manual accounting v/s computerized accounting, Tally features, Tally Fundamentals – Company Data – Gateway of Tally, Creating and Maintaining a Company, Loading a Company, Ledger creation and Voucher Entry	15
Unit IV	Report Generation in Tally Printing Configuration for vouchers, Printing reports – Day Book, Profit and Loss A/C, Balance Sheet, etc. Data Management – Backup & restore, Split a Company, Import and Export of Data	15
Books Recommended: 1. Anthony, R. N. and Reece. J. S.: Accounting Principles: Richard Irwin Inc. 2. Gupta. R. L. and Radhaswamy. M: Financial Accounting; Sultan Chand and Sons 3. Shukla. M.C., Grewal T.S., and Gupta, S.C.: Advanced Accounts: S. Chand & Co. 4. Advance Accountancy:- Maheshwari 5. Advance Accountancy:- R. L. Gupta 6. Computerized Financial Accounting Using Tally - Rajan Chougale

B. Com. Computer Application SEMESTER – III

OE3 Co-operative Development Credits: 2

Marks: Semester End: 40 Internal Assessment: 10 Total Marks: 50

Course Outcome	After completion of this course students will able to - 1. To identify the structure of different co-operative institutions. 2. To understand the audit system and co-operatives Act.	
Unit I	Introduction to Co-operation: A) Meaning & significance of Co-operation. B) Principles of Co-operation with Recent Development C) Role of Co-operation in Economic Development. D) Role of National Agencies and organizations in the Development co-operative movement: E) Agricultural and Non Agricultural Co-operatives in India:	15
Unit II	Co-Operatives Audit A) Objectives of Co-Operatives –Audit –kinds of Audit B) Role and functions of Auditor C) Role and functions of Registrar D) Defects in Audit system. E) Maharashtra Co-Operatives Act	15
Books Recommended: 1- Co-Operation in India, H. R. Mukhi, New Heights-Publishres, New Delhi. 2. Theory, History and Practice of Co-Operation R. D. Bedi, Loyal Book Depot, Meerut 3-Law and Management of Co-Operatives, Dr. B. S. Mathur, Sahitya Bhavan, Agra B. B. Trivedi 4-Agricultural Co-Operation in India-John Mathur-Reliance Publishing House, New Delhi. 5. Fundamentals of Co-Operation- Dr. Krishna Swami, S. Chand and Campany Ltd, New Delhi		

Faculty of Commerce and Management Syllabus as per National Education Policy (NEP) 2020 B. Com. Computer Application SEMESTER – III OE3 Rural Development-I Credits :2 Marks: Semester End: 40 Internal Assessment:10 Total Marks: 50 Introduced from June 2025		
COURSE OUTCOMES: After studying this course, students will be able to... 1. Understand the importance of rural development. 2. Analyze the process of rural community development.		
Unit No.	Content s	No. of Hours
1	Rural Development:- Concept, Objectives, Importance, Nature and Scope; Characteristics of Rural Economy; Concept of Development, Distinction between Development and Growth, Indicators of Development; Prerequisites for Rural Development; Main Obstacles to Rural Development; Factors Governing Rural Development.	15
2	Rural Community Development: Concept of Community, Functions of the Community, Community profile: Process and tool, Concept of community development, Characteristics, Principles and Scope, Panchayati Raj and community development in India	15

Faculty of Commerce and Management Syllabus as per National Education Policy (NEP) 2020 B. Com. Computer Application SEMESTER – III OE3 Agricultural Economics-I Credits :2 Marks: Semester End:40 Internal Assessment:10 Total Marks: 50		
COURSE OUTCOMES: After studying this course, students will be able to... 1. Understand the issues related with agricultural and economic development 2. Analyze the economics of agricultural production.		
Unit No.	Content s	No. of Hours
1	Agricultural Economics and Theories of Agricultural Development: 1.1: Introduction to Agricultural Economics: Nature & scope of agricultural economics - utility of agricultural economics, role and importance of agriculture in economic development. 1.2: Demand and supply behaviour in Agriculture: Elasticity of Demand – Approaches to study supply response- factors affecting supply response. 1.3: Theories of agricultural development: (Schultz, Mellor, Hayami and Ruttan) 1.4: Practical and applications: Contemporary Relevance of above theories	15
2	Economics of Agricultural Production: (15 Periods) 2.1: Basic concepts in agricultural Production: Agricultural production visà-vis industrial production – Features of modern agricultural production. 2.2: Factor- Product Relationship: Meaning & uses of agricultural production function- Agro-technology & production function production function with one variable factor (traditional & modern approach). 2.3: Factor-Factor Relationship: Optimum factor combination- Effects of changes in factor price on factor usage - Product-Product Relationship: Optimum Product Combination – Types of Enterprises Combinations- Isocline. 2.4: Practical and applications: Case studies on Agricultural Production Function	15

Syllabus as per National Education Policy(NEP) 2020
B. Com. Computer Application SEMESTER – III

VSC3	Web Technology	Credit: 02
Marks: Semester End: 40 Internal Assessment: 10 Total Marks: 50		
Course Outcome	After completion of this course student should be able to- 1. Understand the basics of website and web development life cycle. 2. Design website using different tags of HTML and their attributes	
Unit I	Introduction to Internet & Website 1.1 Basics of Internet 1.2 Introduction to Web Browser and Web Server 1.3 Introduction to World Wide Web (WWW) 1.3 HTTP, DNS, IP Address 1.4 Types of Websites (Static and Dynamic Websites) 1.5 Web Development lifecycle	15
Unit II	Introduction to HTML 2.1 Introduction to HTML, History, Features 2.2. HTML tags & attributes 2.3 HTML Form elements 2.4. HTML Frameset 2.5. Limitations of HTML	15
Books Recommended: 1. Complete HTML-Thomas Powell 2. HTML Black Book- Steven Holzner		

Faculty of Commerce and Management
Syllabus as per National Education Policy(NEP) 2020
B. Com. Computer Application SEMESTER – III
AEC3 Communication and Soft Skills P-I Credits: 2
Marks: Semester End: 40 Internal Assessment: 10 Total Marks: 50

Course Objectives

After learning this course students will be able -

- ☐ To introduce students to the business letters
- ☐ To make students aware of how to write application letters
- ☐ To enable students develop their C.V.
- ☐ To acquaint students with the skills and sub-skills of Interview.

Course Outcomes

After completion of this course -

- Students become familiar with the concepts related to business correspondence
- Students are able to write their own C.V.
- Students become well acquainted with writing application letters
- Students know how to face the interview

Ability Enhancement Course (AEC)				
Unit No.	Title of the Unit	Subtitles of the Unit	Hours	Marks
Semester III				
I	Business Correspondence: Inquiry and Reply	1. Putting an Order & its reply 2. Making an inquiry & its reply 3. Customer Complaint & its reply	15	20
II	Writing Application Letter, C.V. and Interview Techniques	1. Characteristics of Application Letter 2. Do's & Don'ts of Interview	15	20
	Total		30	40
Internal Evaluation for 10 Marks				

Total Teaching Hours: 15 X 2 = 30 hours

QUESTION PAPER PATTERN
Ability Enhancement Course (AEC) (For 40 Marks)
Semester III

Q.1-A: Multiple Choice Questions (4 questions) 4 marks

B: Answer in one word/phrase /sentence (4 questions) 4 marks

- Q2. A. Question to be set on Business Correspondence: Inquiry and Reply –
8 Marks
- B. Question to be set on Business Correspondence: Inquiry and Reply –
8 Marks
- Q3. A. Question to be set on Writing Application Letter, C.V. and Interview Techniques –8
Marks
- B. Question to be set on Writing Application Letter, C.V. and Interview Techniques –8
Marks

Internal Assessment: 10 Marks

B. Com. Computer Application SEMESTER – IV

Course Code: FP1	Field Project	Credit :02	Marks:50
Course Outcomes	After completion of this course student should be able to- 1. Understand domain knowledge of Computer Networking 2. Identify the features of computer networking used in business.		
Guidelines for Project	1. A group of maximum two to four students prepare a Field project under the guidance of internal teacher. 2. Students should adopt Field Visit approach 3. Students should visit any organization and collect the information about different features of Computer Networking by the organization 4. Number of Copies: The student should submit one Spiral copy of the Field Project Report to College /University & also prepare one individually spiral copy. 5. The Field project report is duly signed by Principal or Head of Department, Project Guide and Student.		
Guidelines for submission of the Project Report.	a. Paper: The Report shall be typed on white paper, A4 size, for the final submission. The report to be submitted must be original and subsequent copies may be photocopied on any paper. b. Typing: The typing shall be of standard letter size, 1.5 spaced and on <u>both side of the paper.</u> (Normal text should have Times New Roman, Font size 12. Headings can have bigger size) c. Margins: The typing must be done in the following margins: Left 1.5 inch, Right ----- 1 inch Top ----- 1 inch, Bottom 1 inch d. Front Cover: The front cover should contain the following details: TOP : The title in block capitals of 6mm to 15mm letters. CENTRE: Full name in block capitals of 6mm to 10mm letters. BOTTOM: Name of the University, Course, Year of submission -all in block capitals of 6mm to 10mm letters on separate lines with proper spacing with center alignment.		
Documentation Format	a) Cover Page b) Institute/College Recommendation c) Guide Certificate d) Declaration e) Acknowledgement f) Index g) Chapter Scheme 1) Organization Profile 2) Objectives of Computer Networking 3) Scope of Computer Networking 4) Network Configuration 5) Features of Computer Networking 6) Advantages and Disadvantages of Computer Networking 7) Conclusion		

Field Project Evaluation

Total Marks - 50

S. No.	NORMS	MARKS
1.	Project Report	20
2.	Project Presentation	15
3.	Question/ Answer	15
	TOTAL	50

Field Project Examination should be conducted by the University appointed examiner panel

Syllabus as per National Education Policy(NEP) 2020
B. Com. Computer Application SEMESTER – IV

DSC10	DBMS	Credit: 02
Marks: Semester End: 40 Internal Assessment: 10 Total Marks: 50		
Course Outcome	After completion of this course students will be able to - 1) Describe the basic concepts of DBMS and real life applications of DBMS 2) Learn MS-Access and SQL for database creation and handling transactions.	
Unit I	Introduction to DBMS Definition of DBMS, Features of DBMS, advantages and disadvantages of DBMS, Structure of DBMS, Architecture of database system, Data models: Hierarchical Model, Network Model, Relational Model and Entity Relationship Model. Concept of Keys: Primary key, foreign key, candidate key, super key, unique key. Concept of normalization, First NF, Second NF, Third NF, advantages of normalizations.	15
Unit II	Database Management through SQL and Ms-Access SQL: Introduction of SQL, features, SQL data types, DDL commands, DML commands, select command, aggregate functions, order by clause. MS-access: Introduction of Ms-Access, features, database creation, table creation, insert records, queries, forms and report creation through wizards.	15
Books Recommended: 1) Database System Concept – Henry korth and A. Silberschatz 2) Fundamentals of Database System- Ramez Elmasri, Shamkant B. Navathe(Pearson) 3) Database Management System- Raghu Ramkrishnan, Gehrke (McGraw Hill) 4) SQL, PL/SQL The Programming Language Oracle :- Ivan Bayross, BPB Publication 5) Introduction to SQL by Reck F. van der Lans by Pearson 6) Database Management System- R. Panneerselvam 7) Ms-Office Complete reference

B. Com. Computer Application SEMESTER – IV

DSC11	System Analysis and Design	Credit: 04
Marks: Semester End: 80 Internal Assessment: 20 Total Marks: 100		
Course Outcome	After completion of this course students will able to – 1. To understand Processes Models in Software Engineering. 2. To analyze Software requirements using different analysis tools. 3. To identify the objectives of input and output design for software. 4. To understand the coding process in Software Engineering.	
Unit I	1.1 Introduction to Software Engineering 1.1.1 Definition, need for Software Engineering 1.1.2 Software Engineering Problem 1.1.3 Software Engineering approach 1.1.4 Software Development Life Cycle 1.2 Process Models 1.2.1 Water fall model- Classical, Iterative 1.2.2 Prototyping Model 1.2.3 Spiral Model 1.2.4 Rapid Application Development (RAD)	15
Unit II	2.1 Requirements Anticipation and Investigation 2.2 Fact finding methods 2.3 Software requirement Specification (SRS) Concept, Need, Characteristics, Components, Structure of SRS 2.4 Decision Analysis Tools: Decision Tree, Decision Table 2.5 Data Flow Diagrams 2.6 Entity Relationship Diagram	15
Unit III	3.1 Design of input & Control 3.2 Objectives of Input Design 3.3 Input Validations, 3.4 Design of output: Objectives of Output, Design Types of Output, 3.5 User Interface design: Elements and issues of good design, features of modern GUI	15
Unit IV	4.1 Coding 4.1.1 Programming principles and guide lines 4.1.2 Coding process 4.2 Case Studies: 4.2.1 Tours & Travels management System 4.2.2 Sales & Purchase Management System 4.2.3 Library Management System 4.2.4 Hospital Management System	15

Books Recommended:**Text Book-**

1. System Analysis and design and Introduction to Software Engineering by Parthsarathi, B.W. Khalkar, Everest Publishing House

Reference Books-

1. An Integrated Approach to Software Engineering by Pankaj Jalote, Tata McGraw-Hill
2. Fundamentals of Software Engineering by Rajib Mall, PHI Learning
3. Software Engineering by R.S. Pressman, Tata McGraw-Hill
4. Software Engineering by Martin Shooman, McGraw-Hill

B. Com. Computer Application SEMESTER – IV

DSC12	Lab on DSC10	Credit: 02
Marks: Semester End: 50 Total Marks: 50		
Course Outcome	After completion of this course student should be able to- 1. Perform SQL queries on database using DDL and DML commands. 2. Use MS-Access to design database and perform transactions for different systems.	
List of Practical's:		
1. Implement DDL commands (create, describe, alter, drop) using SQL 2. Implement DML commands (insert, delete, update) using SQL 3. Implement select command using SQL 4. Implement select command using aggregate functions and order by clause using SQL (Perform exercises using Open-Source Software like MySQL) 5. Solve following Case Studies using MS-Access a) Library system: b) HR Management System c) Inventory Management System For each case study: Design at least 5 tables with appropriate constraints. Design forms and insert at least 5 records in each table, Create different queries using query wizard. Create at least 3 reports using report wizard

Syllabus as per National Education Policy (NEP) 2020

B. Com. Computer Application SEMESTER – IV

DSM3 Fundamentals of Mathematics Credits :4

Marks: Semester End: 80 Internal Assessment:20 Total Marks: 100

COURSE OUTCOMES:

After studying this course, students will be able to...

- 1) Basic knowledge of set theory, functions and relations concepts, and matrix needed for designing and solving problems.
- 2) Construct simple mathematical proofs and possess the ability to verify them.
- 3) Write an argument using logical notation and determine if the argument is valid or is not valid.
- 4) Use graph algorithms to solve problems.

Unit No.	Contents	No. of Hours
I	I SETS 1.1 Introduction. 1.2 Methods of describing of a set: Tabular form, Set builder form. 1.3 Finite set, Infinite set, Empty set, Subset, Universal set, Equal sets, Disjoint sets, Complementary set. 1.4 Operation on Sets: Union of sets, Intersection of sets, Difference of sets, Examples. 1.5 De Morgan's Laws (without proof). 1.6 Venn diagram, Examples.	15
II	Logic 2.1 Introduction. 2.2 Definition: Statement (Proposition). 2.3 Types of Statements: Simple and compound statements. 2.4 Truth values of a statement. 2.5 Truth Tables and construction of truth tables. 2.6 Logical Operations: Negation, Conjunction, Disjunction, Implication, Double Implication. 2.7 Equivalence of Logical statements. 2.8 Converse, Inverse and Contra positive. 2.9 Statement forms: Tautology, Contradiction, and Contingency. 2.10 Duality, Laws of logic: Idempotent laws, Commutative laws, Associative laws, Identity laws, Involution laws, Distributive laws, Complement laws, De Morgan's laws. 2.11 Argument: Valid and Invalid arguments. 2.12 Examples based on above.	15
III	Matrices 3.1 Introduction. 3.2 Types of matrices: Row matrix, Column matrix, Null matrix, Unit matrix, Square Matrix, Diagonal matrix, Scalar matrix, Symmetric matrix, Skew - symmetric matrix, Transpose of a matrix, 3.3 Definition of Determinants of order 2nd & 3rd and their expansions 3.4 Singular and Non-Singular Matrices 3.5 Algebra of Matrices: Equality of matrices, Scalar Multiplication of matrix, Addition, Subtraction and Multiplication of matrices. 3.6 Elementary Row & Column Transformations 3.7 Inverse of Matrix (Using Elementary Transformations)	15

IV	Graphs 4.1 Introduction 4.2 Simple graph, Multi graph, Pseudo Graph 4.3 Digraph 4.4 Weighted Graph 4.5 Degree of Vertex, Isolated Vertex, Pendant Vertex. 4.6 Walk, Path, Cycle. 4.7 Types of Graph: Complete, Regular, Bi-Partite, Complete Bi-partite. 4.8 Matrix Representation of Graph: Adjacency and Incidence Matrix. 4.9 Operation on Graph: Union, Intersection, Complement. 4.10 Examples based on above.	15

B. Com. Computer Application SEMESTER – IV

DSM4	Digital Marketing	Credit: 02
Marks: Semester End: 40 Internal Assessment: 10 Total Marks: 50		
Course Outcome	After completion of this course student should be able to- 1. Analyze the different digital marketing avenues. 2. Examine the digital marketing tools.	
Unit I	Digital Marketing: Introduction, Definition, Meaning and Scope, Advantages of digital Medium over other media, Types of Digital Marketing 1.Mobile Marketing: Different kinds of mobile marketing ,mobile marketing ecosystem 2. Social Media Marketing: Different social Media Channels, Social media for various businesses B2C& B2B, 3. Content Marketing: story telling in Social media 4. E-Mail Marketing: The basics of Email marketing 5. Display Marketing: Different Kinds of Display marketing	15
Unit II	Search Marketing : Introduction, Meaning, Types ,Basics of Search marketing, SEO-Working, Search Engine marketing (SEM) :Introduction, Meaning, Types of SEM, Difference between SEO and SEM, Overview of Google Ad words, Keywords research and analysis, Tracking the success of SEM Search Engine	15

Established: 1962

A⁺⁺ Accredited by NAAC (2021) With CGPA 3.52

New Syllabus For Community Engagement Programme (CEP) All Bachelor Degree Programme

STRUCTURE AND SYLLABUS IN ACCORDANCE WITH

NATIONAL EDUCATION POLICY - 2020

HAVING CHOICE BASED CREDIT SYSTEM

WITH MULTIPLE ENTRY AND MULTIPLE EXIT OPTIONS

(TO BE IMPLEMENTED FROM ACADEMIC YEAR 2024-25 ONWARDS)

Community Engagement Programme (CEP):

1. INTRODUCTION:

New generation of students are increasingly unaware of local rural and peri-urban realities surrounding their HEIs, as rapid urbanization has been occurring in India. A large percentage of Indian population continues to live and work in rural and peri-urban areas of the country. While various schemes and programs of community service have been undertaken by HEIs, there is no singular provision of a well- designed community engagement course that provides opportunities for immersion in rural realities. Such a course will enable students to learn about challenges faced by vulnerable households and develop an understanding of local wisdom and lifestyle in a respectful manner

2. OBJECTIVES:

- To promote a respect for rural culture, lifestyle, and wisdom among students.
- To learn about the present status of agricultural and development initiatives.
- Identify and address the root causes of distress and poverty among vulnerable households.
- Improve learning outcomes by applying classroom knowledge to real-world situations.

To achieve the objectives of the socio-economic development of New India, HEIs can play an important role through active community engagement. This approach will also contribute to improve the quality of both teaching and research in HEIs in India. India is a signatory to the global commitment for achieving Sustainable Development Goals (SDGs) by 2030. Achieving these 17 SDG goals requires generating locally appropriate solutions. Community engagement should not be limited to a few social science disciplines alone. It should be practiced across all disciplines and faculties of HEIs. These can take the forms of enumerations, surveys, awareness camps and campaigns, training, learning manuals/films, maps, study reports, public hearings, policy briefs, cleanliness and hygiene teachings, legal aid clinics, etc. For example, students of chemistry can conduct water and soil testing in local areas and share the results with the local community. Students of science and engineering can undertake research in partnership with the community on solid and liquid waste disposal. Therefore, students are being encouraged to foster social responsibility and community engagement in their teaching and research.

3. LEARNING OUTCOMES:

After completing this course, students will be able to

- Gain an understanding of rural life, Indian culture, and social realities.
- Develop empathy and bonds of mutuality with the local community.
- Appreciate the significant contributions of local communities to Indian society and economy.
- Learn to Value local knowledge and wisdom.
- Identify opportunities to contribute to the community's socioeconomic improvement.

4. Credits: Two credit Course; Students are expected to complete 60 hours of participation

5. COURSE STRUCTURE:

Sr.	Module Title	Module Content	Teaching/Learning/Methodology
1	Appreciation of Rural Society	Rural lifestyle, rural society, joint family, caste and gender relations, rural values with respect to community, rural culture nature and public resources, ponds and fisheries, elaboration of soul of India lies in villages' rural infrastructure,	Classroom discussions Field visit Individual /Group conference Report/journal submission & VIVA

- ☐ Entrepreneurship Awareness Programme
- ☐ Awareness Programmes on Government Schemes
- ☐ Products Market Awareness
- ☐ Services Market Awareness
- ☐ Consumer Awareness Programme
- ☐ Accounting Awareness Programme for Farmers
- ☐ Accounting Awareness Programme for Street Vendors etc.

6. IMPORTANT RULES AND REGULATIONS FOR CEP:

Concurrent Fieldwork:

Students must conduct comprehensive studies on various challenges that they face in their chosen field. Every work relevant to the subject matter should be compiled and documented.

Students should keep separate fieldwork diary or maintain journal in order to record their fieldwork experiences i.e. reading, e- contents, tasks, planning and work hours have to be recorded in the diary. Detailed work records report on students' fieldwork experiences and activities to be submitted and should be presented. The fieldwork conference is part of the timetable and is mandatory. Faculty should hold a fieldwork conference FOREIGHTNIGHTLY for all students.

In addition to the principal curriculum, the students engage in a variety of community development- related activities. They are encouraged to plan and carry out programs, processions, and events for social causes. These activities seek to enhance students' personal and professional skills as well as foster self- development. "Rural Camp" should be embedded in the curriculum for first-year students to be held in the backward and neglected areas of District's

Concurrent Fieldwork is the core curriculum activity in the CEP course. Hence, 100% attendance of the students is mandatory in case of absence on any student, supplementary fieldwork must be arranged and accomplished with the approval of the faculty supervisor.

7. EVALUATION/ASSESSMENT SCHEME:

Students should keep a Field Diary / journal to record, content, readings and field visit planning. The assessment pattern is internal and external i.e. 40+10.

Internal continuous Assessment: Participation in concurrent field visits 40%; individual/group field project conference, report/journal submission 40%.

External Assessment: Presentation of field project findings (VIVA) should be assigned 20%.
